COLLECTION

# SILK ROAD

This collection is completely characterized from the strong presence of Silk combined with wool and linen.

Silk has always been a symbol of status, wealth, and power. Not only is it one of the softest, lightest and most breathable fabrics on the market, but for many years its production was a closely guarded secret in China!

Silk garments are uniquely cool in warm weather, yet provide insulation in the cold.

Each triangular fiber refracting the light to produce a natural shimmer unmatched by manmade fibers. A jacket made with these fabrics creates a fresh and striking summer look.

**ARISTON**

# J WORSTED

A rich and colorful jackets collection that has been created using worsted yarns combined with different fibers.

**Worsted** is a high-quality type of wool yarn. The name derives from **Worstead**, a village in the **English** county of **Norfolk**.

The essential feature of worsted yarn is straight, parallel fibres, this makes the resulting fabric very resilient. The wool/silk/linen blends offer a more relaxed appearance and have a luxurious handle. Both linen and silk are extremely durable, hold their shape well and provide a garment with depth and inherent natural beauty.

The result is a fantastic soft, brilliant and modern offer of unique jackets.

## WAVES

Flax has always been in the history the favourite fiber for the summer season. Its cool touch and irregular aspect is associated with the summer mood.

We created different mix of fibers to keep intact the properties of flax improving its natural tendency to crease.

Enjoy a drink in Santorini or Ibiza with one of these jackets and you will feel like an olive in a Martini.

# BLAZER

This influential and timeless classic instantly transforms any look from casual to smart.

The extensive color palette offers a wide range of choice from classic blue to pastels and strong tones.

It is the most versatile garment of any wardrobe often worn with chino trousers and jeans. How to forget Gianni Agnelli wearing a blue blazer with blue jeans made in sartorial way and car shoes?

ARISTON

# VIVALDI 4 SEASONS

This luxury bunch is composed by 2 articles.

## **Art. P167**

It is a 150's wool & silk extremely light that is a masterpiece both for quality and innovation.

The very fine wool yarn used to make this fabric is printed with a special technology that gives to it an incredible light effect and an unusual three-dimensional aspect. Even the most classic designs becomes new and fresh.

## **Art. P025**

The cloth from our Vivaldi 4 Seasons are woven with an 15,5 micron superfine merino wool and it's double twisted.

A bespoke garment made with that will retain its shape, maintain good crease recovery and ensure unlimited pleasure all year round.

# CONTEMPORARY

Based on a fine yarn merino wool of 17 micron, realized in twill with large use of mulinè, this comprehensive collection contains contemporary designs from boldest to more calm but all representing our research for details.

Ideal for gentlemen that are in search of new, unexpected, refined looks.

**ARISTON**

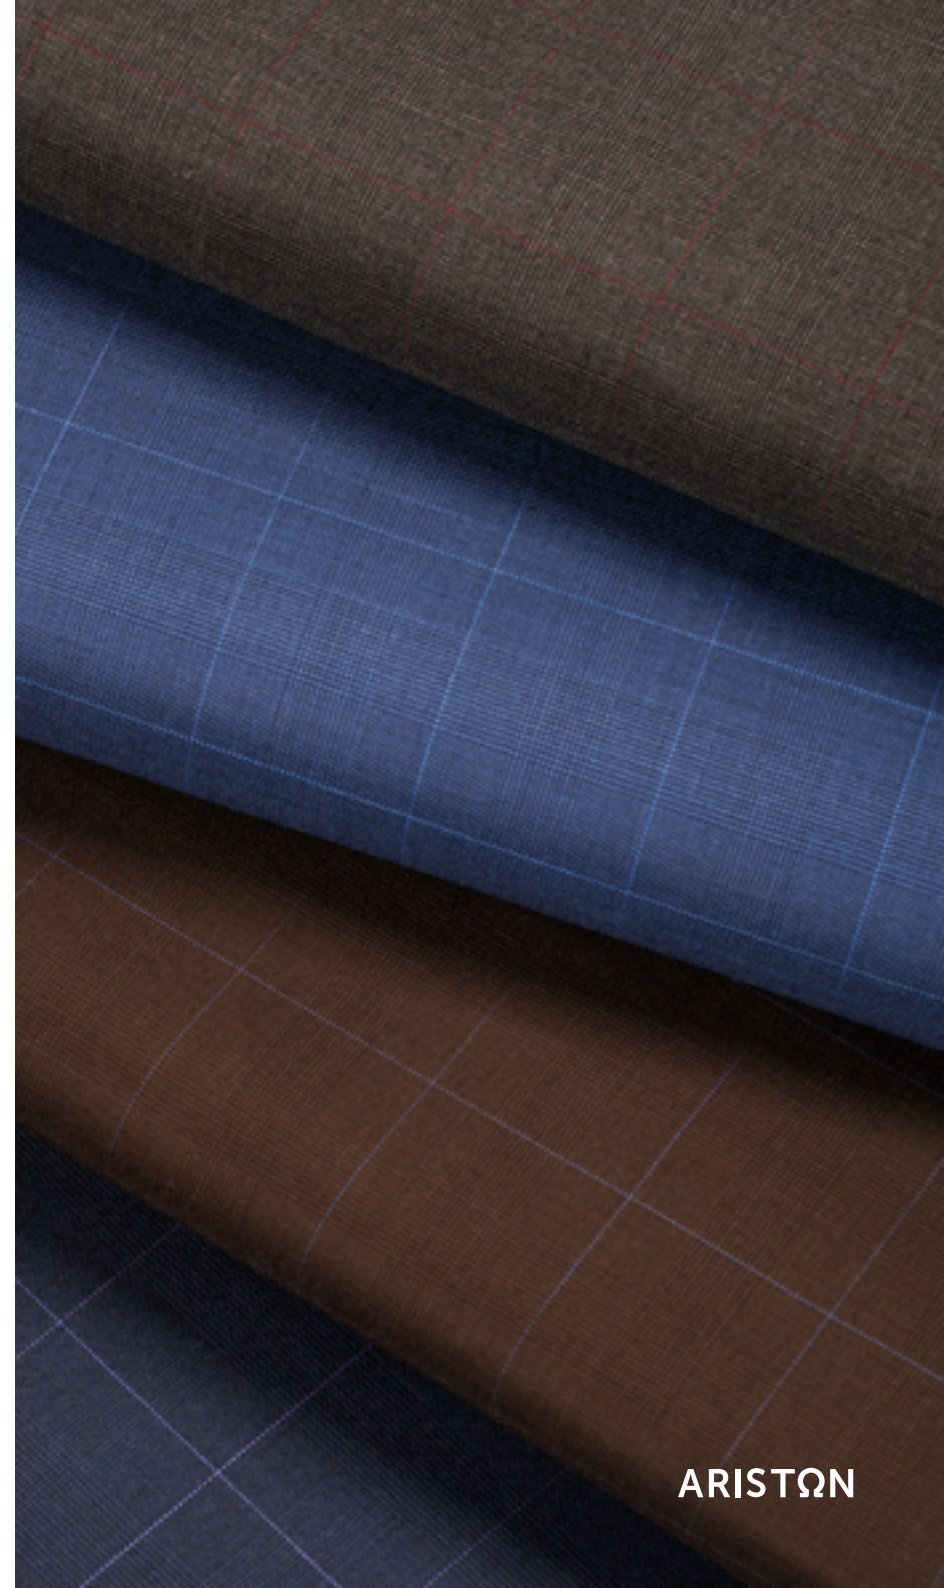

# CLASSIC REVOLUTION

Evergreen classics can be revolutionary when all changes too fast and a man wants to keep its roots linked to his culture.

A small detail, a refined ties, a change in the model can revive even the most classic fabric. Of course Ariston offers also something different.

Double twisted 130's for all occasions and for all times.

**ARISTON**

# MOHAIR WORLD

**Mohair** is a yarn made from the hair of the Angora goat. Both durable and resilient, mohair is notable for its high luster and sheen, and is often used in fiber blends to add these qualities to a textile. Mohair takes dye exceptionally well. It has excellent insulating properties, remaining cool in summer due to

its moisture-wicking properties. It is durable, naturally elastic, flame-resistant and crease-resistant.

We present 3 variations with different percentages of mohair to allow the choice suitable for each customer.

**ARISTON**

# 130'S SUMMER

Plain light fabrics with a strong summer connotation.

**Art. A959** combines the wonder of the fine merino's wool with the natural freshness of the flax.

**Art. P103** is like a second skin: it is resilient, breathable and has the incredible property to dissipate warm 3 times more than a normal wool and it's all natural!

**ARISTON**

# 150'S & 160'S

The luxury solids both in 150's and 160's from the best yarns all double twisted.  
Plain weave, twill and even an exceptional gabardine.

# MOOVE

As for the title, a full collection of fabrics realized with the natural stretch technology.  
The comfort of a superior elastic cloth without any artificial yarn.

We present both constructions twill and plain weave with a wide variety of colors.

**ARISTON**

# DYNAMIC & COOL

Fancy natural stretch together with the essence of summer atmosphere.

For a relaxed, natural chic way of dressing during the warm season.

ARISTON

# SPORTYX

Casual look is becoming more and more important in the modern fashion trends. We present a capsule of articles with colorful designs and special feature as the use of viscose and cotton mixed with wool.

The results is a unique interpretation of the Italian style.

ARISTON

# LEISURE & SPORTS
